

Maksim Arsholoev

Frontend Developer (React, TypeScript) | Building Enterprise Solutions for EdTech & ERP Platforms

Cell: (224) 614-2195 | Email: arsholoevmaksim@gmail.com | LinkedIn: </in/arsholoevmaksim/> | GitHub: [@pianist161](#) |

Address: Chicago, IL, USA

PROFILE SUMMARY

Results-driven **Frontend Developer** with **5+ years** of expertise in architecting and optimizing high-impact **web applications** for **EdTech**, **ERP**, and **CRM platforms**. Proficient in **React**, **TypeScript**, and **modern toolchains**, with a track record of enhancing user engagement through intuitive **UI/UX design** and **performance-driven development**. Adept at leading **frontend** rebuilds, integrating **AI-powered features**, and delivering **modular systems** that streamline enterprise workflows. Recognized for translating technical requirements into scalable solutions that reduce development timelines by **20–25%** while maintaining **80%+ code coverage** through rigorous testing.

AREAS OF EXPERTISE/EXPOSURE INCLUDE

- **Core Competencies:** React.js Development | TypeScript Implementation | State Management | UI Design Systems | Performance Optimization | API Integration | Agile Collaboration | Responsive Design | Code Quality Assurance
- **Frontend Technologies:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **State Management Solutions:** Redux Toolkit, RTK Query, Context API, Custom Hooks
- **UI Libraries & Styling Tools:** Material UI, Styled-components, CSS Modules
- **Performance Techniques:** Memoization, Lazy Loading, Caching Strategies, Mobile-First Design
- **Integration Skills:** RESTful APIs, WebSocket, Axios, Firebase
- **Testing Frameworks:** Jest, React Testing Library, Unit Testing
- **Development Tools:** Git, GitHub, GitLab CI/CD, Webpack, npm, Figma
- **Design Proficiency:** Responsive Design, Mobile-First Development, Figma Prototyping

PROFESSIONAL EXPERIENCE

Frontend Developer

Jul 2023 – Present

Edvibe (EdTech) | Chicago, IL (Remote)

- Led the development of responsive interfaces for an innovative language teaching platform, elevating user engagement and retention.
- Integrated **RESTful APIs** to display real-time analytics, achieving reduced **API response** times through optimized caching strategies.
- Constructed and maintained over **15 reusable React components**, reducing feature development time by **22%** and ensuring consistent quality.
- Achieved **80% code coverage** for critical UI components through diligent unit testing with Jest, enhancing overall code reliability.
- Optimized front-end performance by reducing render times by **15% via memoization and lazy loading** techniques, contributing to improved application speed.
- Collaborated closely with a cross-functional team to deliver multiple feature updates ahead of schedule, driving overall project success.

Tech Stack: TypeScript, React.js, Redux Toolkit, RTK Query, Styled-components, Formik, Recharts, Axios

Frontend Developer

May 2021 – May 2023

Tagful (Manufacturing/ERP) | Chicago, IL

- Redesigned user interfaces for an **ERP system**, reducing order registration time by **80%** and significantly enhancing operational efficiency.
- Developed a real-time inventory dashboard featuring interactive charts and notifications, which improved resource oversight by **25%**.
- Engineered analytical reports incorporating **Gantt** charts and key performance metrics, streamlining production planning processes.
- Implemented a robust role-based access management interface, bolstering system security and overall usability.
- Configured real-time push notifications to improve communication, resulting in a **20% increase** in operational efficiency.

Tech Stack: React.js, Redux Toolkit, Material UI, Recharts, Axios, REST API, Firebase, GitLab CI/CD

- Progressed from an intern role to a junior developer by consistently delivering high-quality work on diverse client projects.
- Developed responsive **UI components** using **React** and **JavaScript**, enhancing the overall user experience across multiple platforms.
- Resolved **cross-browser layout** and **styling issues**, ensuring consistent and accessible designs on various devices.
- Integrated **APIs** to display **dynamic content** with reliable **error handling**, improving data accuracy and user satisfaction.
- Authored reusable code and embraced a **component-based architecture**, fostering maintainability and **scalability** in applications.
- Collaborated in daily stand-ups and code reviews with designers and senior developers, contributing to a culture of continuous improvement.

Tech Stack: React, JavaScript, CSS3, REST APIs

PROJECTS

Edvibe 3.0 (Jul 2023 – Present):

- Revamped an EdTech platform by introducing innovative features such as a **virtual classroom** with **live video calls** using **WebRTC** and **WebSocket**.
- Integrated an **AI assistant** to generate personalized assignments and built a **modular admin panel** with **customizable dashboards**.
- Employed **advanced performance** optimization techniques to enhance mobile responsiveness and user engagement.

ERP & CRM Systems (Tagful) (May 2021 – May 2023):

- Developed **advanced dashboards** and analytics modules for **ERP** and **CRM applications**, **streamlining internal** operations.
- Designed secure access control systems and implemented real-time notifications to boost usability and operational transparency.
- Enhanced internal tools that supported sales and operations teams, leading to improved workflow efficiency.

EPAM (Feb 2020 – Apr 2021):

- Contributed to a variety of client projects in a consulting environment, rapidly progressing from Frontend Intern to Junior Frontend Developer.
- Delivered scalable, **responsive UI components** and ensured **cross-browser compatibility** for diverse client needs.
- Integrated APIs effectively with robust error handling, laying a strong foundation for future-proof application development.

WORK AUTHORIZATION & AVAILABILITY

- Authorized to work in the U.S. without visa sponsorship and open to remote or hybrid opportunities in Chicago, IL.
